

Claims: I claim:

1. A waterproof housing that functions with multiple video cameras comprising:
 - a. A haul to contain a video camera with a lens for viewing
 - b. A tray to mount said video camera and stabilize within said haul
 - c. An adjustable mechanism attached to said tray for controlling said video camera.
 - d. A lid for sealing said haul, making unit waterproof.
 - e. A means for activating said adjustable mechanism while said haul is sealed
